About Us

The Macon County Health Department (MCHD) is a Certified Local Health Department that provides clinical and social preventive services for all ages through the operation of various programs, services, and partnerships. Our vision is to lead Macon County to be one of the healthiest counties in Illinois and our mission is to promote the health and healthy practices of all residents of Macon County.

Clinical Nursing

- Provides clinical services for patients of all ages including, but not limited to: immunizations, foreign travel, medication management, STD, and TB screening.

- Provides education about health conditions, preventive measures, treatment options, and additional community resources.

- Various payment options are available; dial extension 1333 for more information.

Please visit our website for hours, clinic schedules, and event information. www.maconcountyhealth.org

Macon County Health Department

Promoting the health & healthy practices of all residents in Macon County.
