All numbers reflect status at time of release. Demographic information reflects confirmed cases only. Deaths are included in the number of confirmed cases. All numbers displayed are provisional and are subject to change.

Since Friday's release, we have had 59 newly-confirmed cases of COVID-19, 29 of which were confirmed on Saturday, August 8th, 15 of which were confirmed on Sunday, August 9th, and 15 of which were confirmed today, Monday, August 10th. Therefore, our overall number is 638 confirmed COVID-19 cases in Macon County.

Today we are unable to provide the total number of tests performed. Due to the increase of tests being performed statewide, there is a delay in reporting from the Illinois Department of Public Health to the Macon County Health Department of the total number of tests. We strive to provide the most up-to-date testing numbers for Macon County. Once the numbers are available, we will report the total testing number.

We encourage all community members to implement social distancing and face covering best practices to limit the spread of COVID-19. People with COVID-19 have reported a wide range of symptoms. If you experience symptoms of COVID-19 with which you are concerned, please call your primary care physician first. Do not show up at a hospital emergency room or doctor's office unless it is a true emergency.

Individuals without a primary care physician can call:
