All numbers reflect status at time of release. Demographic information reflects confirmed cases only. Deaths are included in the number of confirmed cases. All numbers displayed are provisional and are subject to change.

Thus far, 18,108 tests have been completed in Macon County. Since the previous release, we have had 29 newly-confirmed cases of COVID-19. Please note that while there are 29 newly-confirmed cases today, one of the recently reported cases moved out of the county and their case was transferred to the appropriate health department. Thus, the total number of cases is 28 more than yesterday. Therefore, our overall number is 579 confirmed COVID-19 cases in Macon County, and our current positivity rate is 3.197%

We encourage all community members to implement social distancing and face covering best practices to limit the spread of COVID-19. People with COVID-19 have reported a wide range of symptoms. If you experience symptoms of COVID-19 with which you are concerned, please call your primary care physician first. Do not show up at a hospital emergency room or doctor's office unless it is a true emergency.

Individuals without a primary care physician can call:
