

FOR IMMEDIATE RELEASE

December 1, 2020

Crisis Communication Team Press Update

As of today's release, the Joint Crisis Communication Team (CCT) reports the following numbers:

COVID-19 Macon County, Illinois

Updated 12/1/2020

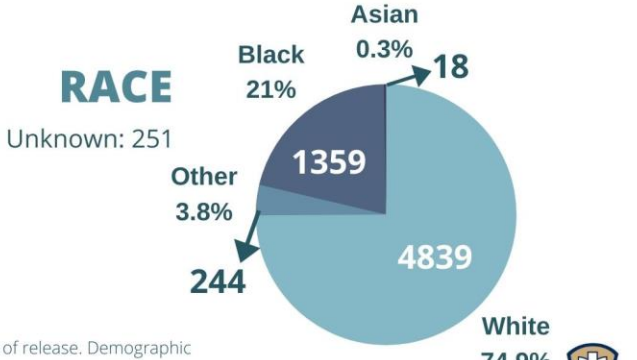

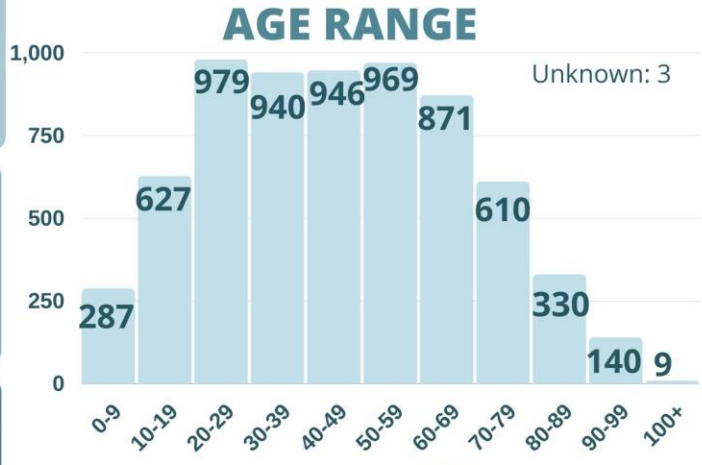

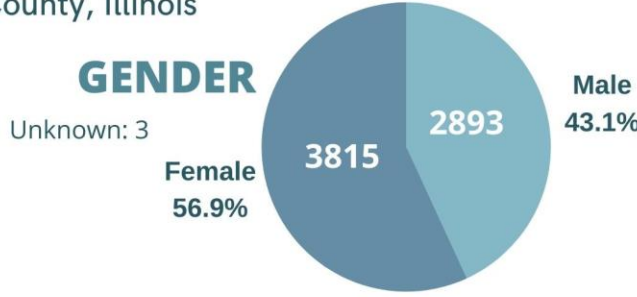

Confirmed Cases
6711

Released from Isolation
3862

Home Isolation
2653

Hospitalized
68

Deaths
128

All numbers reflect status at time of release. Demographic information reflects confirmed cases only. Deaths are included in the number of confirmed cases. All numbers displayed are provisional and are subject to change.

The Joint Crisis Communication Team is incredibly saddened to announce the passing of three Macon County residents with COVID-19. These residents were:

- One female and one male in their 80s
- One female in her 90s

We ask that you please respect the privacy of their families and friends as they mourn their incredible losses.

Today, the Joint CCT is reporting 66 newly-confirmed cases of COVID-19. Please note that while there are 66 newly-confirmed cases today, it was determined through case investigations that three of the recently-reported cases were residents of other counties and their cases were transferred to the appropriate health departments. Thus, the total number of cases is 63 more than yesterday. Therefore, since the start of the pandemic, the total number of confirmed COVID-19 cases in Macon County residents is 6,711. Please acknowledge that every person affected by this pandemic is a human being with family, friends, and a future that is changed by COVID-19. It is up to every single member of this community to do EVERYTHING that they can do prevent the spread of this virus and the consequences associated.

Community members can refer to the Illinois Department of Public Health's website to view the total number of COVID-19 tests performed. You can find this information at the following link - <https://www.dph.illinois.gov/covid19/covid19-statistics> - by selecting Macon County in the dropdown box.

We encourage all community members to implement social distancing and face covering best practices to limit the spread of COVID-19. People with COVID-19 have reported a wide range of symptoms. If you experience symptoms of COVID-19 with which you are concerned, please call your primary care physician first. Do not show up at a hospital emergency room or doctor's office unless it is a true emergency.
