# Screening Checklist for Contraindications to the MODERNA COVID-19 Vaccination

**For patients to be vaccinated:** The following questions will help us determine if there is any reason we should not give you the MODERNA vaccination today. If you answer "yes" to any question, it does not necessarily mean you should not be vaccinated. It just means additional questions must be asked. If a question is not clear, please ask your healthcare provider to explain it.

**yes                  no                  don't know**

---

1. Is the person to be vaccinated sick today?                                                     

---

2. Has the person to be vaccinated ever had a severe allergic reaction to any vaccine or injectable (intramuscular, intravenous, or subcutaneous) in the past?                                                     

---

3. Has the person to be vaccinated received any vaccination in the last 14 days or scheduled to receive any in the next 14 days?                                                     

---

4. Has to person to be vaccinated been infected with COVID-19 in the last 90 days, received monoclonal antibodies or convalescent plasma as part of treatment in the last 90 days? (must be minimum 90 days since treatment)                                                     

---

5. Is the person to be vaccinated today pregnant or breastfeeding?                                                     

---

6. Has the person to be vaccinated today previously received a COVID-19 vaccine?
